

Immune

It has been triple blended to ensure they deliver the most powerful blast of nature's immune boosting nutrients in one shot.

Immune is best stored chilled and outside of natural daylight.

It can be frozen for up to 1 month

1 bottle consists of 30 doses of 10ml each

When it is ready to use give the bottle a good shake and add to an ice cube tray which will provide right size cubes that fit comfortably in the mouth.

Take 2 daily, and allow to dissolve under the tongue

You will feel the benefit on your palette as the bio active ingredients dissolve into the blood stream, bypassing the digestive process.

Ingredients:

All blended with a Ph level of alkaline water that ensures the recipe is packed full of antioxidants and anti-inflammatory nutrients.

Oranges

Soursop
